RE: 2008 Beijing Olympics

John, Monique & Eric,

I want to thank you on behalf of DecoTurf for your unparalleled contribution with regards to the installation of the DecoTurf tennis surface for the 2008 Beijing Olympic Games.

As you know, there are many considerations when building or resurfacing a tennis court, but none more important than selecting an experienced and skilled tennis court contractor. The Beijing Organizing Committee for the Games of the XXIX Olympiad (BOCOG), the International Tennis Federation (ITF), DecoTurf, and the installing contractors Beijing Green World and the Saviano Company have all worked hard to ensure an outstanding tennis venue. Your company's expertise in installing DecoTurf is now known on another continent. DecoTurf is deeply pleased that your work in Beijing will be the stage on which the world's finest tennis players will compete for Olympic medals.

It was a great honor to recommend the Savaino Company for this work, and thank you again for your willingness to team with DecoTurf and make this project a success.

Kindest regards,

A handwritten signature in cursive script that reads "John Graham".

John Graham

Managing Director
